PORT REAL MARINA

N

103-50-10350
Name: Real Marina (North side right)
Latitude: 55°26'14" 17"
Longitude: 133°28'50" 55"
Geodetic Map No: Craig B5 (24)
Location: S shore of Lulu Island
1 mile W of the western tip of Pine Island

Catalog No: 103-50-85
Former Stream No: _____
Work Area: Ketchikan
Watershed Length: 0.75 miles
Drainage Area: 1 sq mi (polar pla.)
Water Supply Type: _____

Trails & Survey Routes: moderately difficult to walk the stream bed due to logging debris; banks are very difficult due to windfall and thick brush

Aerial Survey Notes: long intertidal and mouth should be easily observable from the air

Anchorage: Port Real Marina

Tide Stage when Surveyed: low

RESOURCES

COMMERCIAL FISHERIES (species, escapement, timing, spawning area):
pinks, chum and coho; timing is usually late (after September 10); good rearing for coho;

Spawning area: 1100m² (see map)

Schooling Areas: at the mouth and in a pool near high tide

Spawning Areas: throughout the lower 1500'; scattered areas upstream

SHELLFISH POTENTIAL: a sport fishery for dungeness crab in Port Real Marina; there is a large gravel flats associated with this stream

SPORT FISHERIES: none

LAND USE (history, present, proposed): the stream banks have been extensively logged in the past (20+ years) in the lower 1600'; the resultant debris and disturbance are thought to have caused the extensive braiding and bank instability present in that area

REHABILITATION POTENTIAL: the logs in the stream may have stabilized themselves; possibly removal would not be beneficial

SOILS: much of stream bed and banks are unstable in the area that was previously logged; numerous windfalls in the area

GAME RESOURCES (species, use, habitat): bear and deer track observed near the mouth of the stream
